

Installation Manual

*Turn off the electricity supply before installation

*Ensure 10~15cm of power cable is available, to connect to the fixture

STEP1: Turn the plastic cover anti-clockwise from the base, to remove the cover

STEP2: Mark the points on ceiling to mount screws, using the pre-drilled holes in the base

STEP3: Mount the base on the ceiling with the correct screws/plugs etc.

STEP4: Connect the power cable to the plastic terminal block on the base

STEP5: Attach the plastic cover by gently turning clockwise
